

CPTK4049 Cess Sign

CPTK4044 Sensor Sign

CPTK4050 End Point Sign

Cess Signs: (Mounted on CPTK3590-3 76x76x6.35x3m GRP Post, at a height visible from the 4 foot)

Note: orientated side-on to train view to remove a sighting risk, also to allow the sign to be read from the 4 foot when staff come to either "End Point" or "Start Point"

End Point Signs: (Mounted on sleepers in the 4 foot)

Orientated to be read by anyone walking out of the limits so that it can be clearly read, and arrows point into SATWS protection limits.

Notes:
